REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the references of record neither reveal nor render obvious the concept of setting a distance between insulating support on the basis of approximately a half wavelength of a frequency outside of channel band in the claimed manner.

U.S. Patent 3,975,581 to Lowenhar discloses transmission lines having half wavelength sections [Figure 9D] but lacks a relationship with a frequency outside of a channel band. U.S. Patent 2,588,103 to Fox describes waveguide coupling between coaxial lines, having probes spaces about one-half wavelength apart [Figure 6] but does not mention frequencies outside of channel bands.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick G. Wamsley whose telephone number is (571) 272-1814. The official facsimile number is (703) 872-9306. An alternate facsimile number, (571) 273-1814, should only be used for unofficial documents.
